Dear Mrs. Breton,

It is an exceptional honor and pleasure for our cooperation continues, and for You have chosen us for reference institution for Your students' education.

Our institution has a long tradition in applying balneotherapy, the most contemporary principles of rehabilitation, as well as in applying different types of massage (shiatsu, reflex foot massage and Wellness massages).

There are highly educated physicians – physiatrists (20), physical therapists (70) and nurses, and we are education unit with the Medical School of Belgrade. Our physicians, nurses and physical therapists also work as teachers in Vocational Medical School n Loznica (secondary school for future physical therapists and nurses).

During our previous meetings with You, we became assured that You are serious and approach to the program professionally, so we believe that our cooperation will go well for both sides.

Your students will be able to attend therapy procedures every day, to apply therapies by themselves (for 3 hours in the afternoon - in provided room), to exchange experience and techniques with our physical therapists, all as a part of seven day stay. We may also organize seminar on massage and reflexology in general.

We are open for cooperation and we may talk over details when it becomes certain that this cooperation is possible.

We also expect that You will share Your experience from this field with us, and that it will enrich and broaden our knowledge

We believe that You will affirm previous impressions about us, and that You will recommend us to the other therapy-reflexology associations.

Best regards,

Dr. Nikola Sremčević 
General Manager of Specialized Hospital for Rehabilitation
